Become a designer!

Our local production means we are able to respond to your specialist requirements with flexibility and to implement them quickly. In this way we offer a service which is unique in this sector: you can also become a designer of your own bed!

On the MLW F1, the visuals of the side walls can be designed according to your taste and the ambience of your room. A choice of over 50 elegant wood and colour décors in high gloss or matt are available. For the metal covering, the finish is optionally available in an RAL colour. In this way you can find the colour which suits both you and your bed. And as the perfect finishing touch you can also choose the upholstery for the bed, which is available in an extra soft version, to match the colour of the base of your bed in either white, cream or choco.

In the form of a special highlight your bed can also be fitted with lateral LED strips. Situated on the underside of the bed, these illuminate the floor as well as part of the casing.

The colour of the light can be chosen individually or as an infinitely variable colour gradient. In this way they create a pleasant and exclusive atmosphere.

To ensure the completely coherent and harmonious appearance of your spa, studio or medical practice we offer exclusive furniture and furniture collections.

Designed in an elegant, functional and customer specific way they can also be individually configured in terms of their décor and colour and can be combined perfectly with our spa beds.

Treatment Beds and Multifunction Treatment Units

Made in Germany

To ensure that we do justice to the „Made by Gharieni“ label, we keep to the principle of „quality without compromise“. This also entails a guarantee of quality, as only this can offer customers transparency and security to the same level. To provide you with clear facts with regard to the proof of origin and to demonstrate that social responsibility and consumer interests are of great importance to us, we have undergone a costly certification process by TÜV NORD, and since early 2012 it has been „official“: in accordance with the TÜV NORD test criteria, our treatment beds and multi-

function treatment units are now able to display the „Made in Germany“ seal! Our manufacturing and administration processes are of course subject to constant quality checks. The comprehensive quality management of our business processes has been in place for over ten years now, and includes the ISO 9001 and ISO 13485 certifications. As a customer, this guarantees you quality of product and equally excellent service – a combination that is otherwise very hard to find!

” *Spa Connectors supports the pre-openings of many 5 star luxury spas globally and we recommend Gharieni, not only because of the incredible quality of their equipment but because of the outstanding service and after care support they consistently offer. This is one supplier we never hesitate to recommend!*

Kathryn Moore Founder & Managing Director von Spa Connectors

” *When I first saw the Gharieni Quartz Spa Table and heard of the concept I was extremely excited. For my whole career I have been working with ancient healing methods yet I have always been interested and fascinated by new and progressive technologies. The quartz concept brings an element of deep healing through modern technology – the perfect balance.*

Sean Jordan, Master Therapist

” *We chose the spa tables of Gharieni and we are very happy about the "Porsche" of the treatment beds. These spa tables offer a special luxury thanks to the wide lying surface, the comfortable upholstery, the individual adjustment functions and, in particular, the heatable lying surface! Our guests feel immediately relaxed when they lie down on the treatment beds.*

Sonja Slodki, SPA Managerin Steigenberger Hotels and Resorts, Heringsdorf

” *Our guests appreciate the comfortable treatment beds, which are heatable and have the optimum width even for more corpulent guests. We therapists like, that the couches are adjustable in many different positions by a very simple operation. As a matter of fact an ergonomic workflow is possible.*

René Zinner, Spa-Manager, Bülow Palais Dresden

Gharieni produced an amazing product for us and we couldn't be happier with the results. They really took on our project as it was their own and they pulled through to the finish line. We are very happy with the lovely signature Quartz Massage Bed and have received some great comments about it. This creates our Crystal Life Spa brand being unique and outstanding. We plan to work with Gharieni again for our future Cruise SPA projects. Thanks again Gharieni!

Annie Fung | Assistant Vice President, Spa Wellness & Medical, Onboard Revenue & Guest Experience

We found innovation, uniqueness, high quality, and a number one selling attraction with Gharieni's MLX Quartz Spa Table. The experience our guests receive on this table is truly amazing and stands out above the rest. The heated sand delivers a deeper sense of relaxation, which increases the benefits of any massage performed on this table. EXCELLENCE, at its finest!

Dan Pierotti, Vice President Spa Development & Operations, Noble House Hotels & Resorts

The treatment beds from Gharieni are a real highlight. Because of their optimum electrical adjustment working is very easy, time-saving and ergonomic – no matter if we are making tattoos or even body treatments. Moreover our customers are impressed of the unique comfort of the heated soft upholstery. The exclusive design of the spa table matches our ambience perfectly.

Robyn Cher Klittich und Lisa Klittich, Lasmiranda Tattoo & Beauty, Herrenberg-Gültstein

In Emirates Palace we have been using two Gharieni podiatry chairs especially designed for Bastien Gonzalez since two years without any problems. They are convenient, malleable and easy to use. The programs to save some position are also useful.

Our guest give a good feedback: 'very comfortable chair', 'I could sleep on it', 'Oh nice chair'...

I am also happy with the after sales service.

Laetitia, Studio Manager, Emirates Palace

Beauty Beds

Treatment Beds

Treatment Beds

Options

Upholstery

Airback

This ergonomic Lordosis support system is filled with air by hand pump (on some models also electrically or as triple version). Particularly during long treatments or at customers with back complaints „Airback“ is appreciated.

Smart-Thermo

The intelligent Smart-Thermo heating system is integrated into the cushion of the couch and works with modern micro-processor technology. During the start-up phase, it heats with full power to achieve a comfortable temperature on the surface as soon as possible. Then, it is kept constant until the safety switch automatically turns off the heating after a predefined time. The variable parameters are adjustable via a programming sequence, which is initiated by a certain key combination. The Smart-Thermo heating system works with direct current and is therefore virtually free of electro-smog.

Vibro-Wellness

Vibro-Wellness is a pleasantly massaging vibration system. 6 or 10 different vibration motors in the upholstery can be controlled individually via a manual switch and work on shoulder (back part), seat, and calves. The vibration intensity can be individually adjusted.

Your Logo

Couches with this option can be branded with your personal logo on upholstery or neck rest.

Coloured Upholstery

Our treatment beds SPL, LR, SLR and all beds with XP-upholstery are available in two or three different colours on one upholstery. You can choose your favourite colour from our palette in the cover of this catalogue.

Headrest

XL Extension

This sophisticated alternative to the traditional head rest enables an individual adjustment to each customer: just remove the standard headrest and replace with the XL extension. Thus slim and stout people can be treated ergonomically optimized. Especially in the massage position the XL extension provides a good support for the arms. Of course, the XL extension is also adjustable by simply pulling out. Available for SLXP and SPL also with nose slot!

Multifunctional Mounting for Removable Headrests

This special headrest mounting enables with its double hinge system a variety of individual settings that are impossible to achieve with an ordinary headrest. This allows, in conjunction with the optional head parts, nearly every conceivable treatment at the head. Without headrest.

Crescent Headrest

The curved headrest made from soft, washable polyurethane, is optimal in cosmetic treatments, because there are only minimal points of contact between head rest and customer. Thus there is a better access at the neck and shoulder area. During treatment the client's head is firmly fixed in stable position. Can only be used in connection with the multi functional holder. Ideal for permanent make-up and chiropody/ podiatry!

- Art. 48002 headrest
- Art. 48005 synthetic leather cover
- Art. 75236 disposable cover, 10 pieces

U-shaped headrest soft cushion, related with washable artificial leather. Can only be used in with the multi functional holder headrest. Ideal for back massage!

- Art. 48001 headrest
- Art. 45018 terry cover

Neck Rest Dentalax

This headrest effectively supports the cervical spine during treatment. Depending on the treatment bed, the Dentalax is available in different variations, for example as magnetic variation with medical treatment beds or adapted to the cushion material. By default available in white, the Dentalax can be optionally adapted to the color of the treatment bed (available colors: see colour chart).

Audio-Relax-Headrest

With integrated MP3 player in the XP-upholstery. The side speakers guarantee a pleasant relaxing sound experience with greatest comfort. The device itself is located outside of the pad so it is easy to use at all times. With 50 minutes of GEMA-free relaxation music.

Basis

Rotonde

The Rotonde function enables rotation of the bed to left or right to a total 330°. Due to this rotation, the customer can be placed easily in the ideal position during treatment. The laterally mounted lever can be easily accessed to lock or unlock the turning function of the seat. Our hydraulic models allow a rotation of 360°.

Color-Casing

Coloured casing up to three different variants available: white, grey or in titanium finish. Color selection depending on model.

Special colours metal parts

Special paint of metal parts in RAL-colours on these models possible. The colours titan (RAL 9007), black-brown and white are included in the price.

WoodDecor

This WoodDecor - by default in the wengé-look or in white available - gives your treatment table the right look to our wellness line. You are able to choose your favorite decor, perfectly matching the style of your room. Ask for our current chart of decor range!

Castors

Set of 4 grey, easystop castors with soft tread, suitable for hard and soft floors. Mechanically controlled at Gharieni med, SLR (standard) electrically controlled LR

Foot Switch

Depending on bed model many of the functions can be controlled by feet. Thus both hands are free for the treatment. With the memory foot switch all motors can be controlled separately or even memory positions can be programmed and recalled.

IR Hand-Held Remote Control

For wireless operating of selected Gharieni bed models, such as SLS Podo.

Safety Function Spline

Spline eliminates the risk of crushing by electric recline adjustment, is used for all necessary actuators.

Override Function

The new gas spring technology BLOC-O-LIFT® with override function enables an adjustment of gas pressure-supported bed parts in pulling direction of the gas spring, without the operation of the release lever.

Gharieni Corian® Spa-Collection

Corian®

The mineral material DuPont™ Corian® makes creative visions come true

Surface design. Color games. Three-dimensional thermal forming. With Corian® almost anything is possible. Wavy, seamless, organic shapes, impressive color effects and translucency: Corian® lets your visions become reality.

Corian® Spa Collection

Made of innovative Corian®, the designer table Libra for hydro-treatments, the spa table MO1 and the new multifunctional Pedispa are an optical highlight as well. Corian®, the mineral material from DuPont™, is used worldwide by designers, architects, engineers and artists. The resistant and easy care material captivates with its stone-like, but still pleasant haptics, as well as by its elegant appearance. The unique Corian® is available in many modern shades and optical structures. With soft colors like Cameo White, Arctic Ice and Pearl Gray, or stronger colors like warm Diamond Blue or fresh Grape Green, the wide range of colors provides a distinctive "appearance" - even of your spa table from the unique Corian® Spa Collection.

HydroSpa

PEDIsa

Gharieni PEDIsPa

The world's first 5-motors-powered treatment bed of this kind. With 5 fields of application: Suitable for pedicure, manicure (using of optional accessories), hair care (with removable headrest), facial treatments (as the backrest is inclinable backwards) and make-up. The housing and base of Gharieni's Pedispa consist of high-quality white Corian® as standard. Different colours are optionally available. The upholstery of the seat consists of durable white artificial leather as standard. Different colours are also optionally available. The inclination of the backrest and seat are electrically adjustable. Furthermore, the height of the legrest as well as the distance between legrest and seat are electrically adjustable. The unit is equipped with freely programmable memory-positions, which allows all 5 motors move in the desired positions in sync. The seat can be swivelled 90° to both the right and left. The headrest can be manually tilted to front.

5 in 1 - PEDICURE | MANICURE | FACIAL | HAIR CARE | MAKE-UP

Functionality

- 1: Manually-adjustable headrest by approx. 25° forwards.
- 2: Electrically-adjustable backrest from approx. 26° to 75° backwards
- 3: electrically-adjustable seat in height from approx. 63 cm (24.8 in) to approx. 93 cm (36.6 in)
- 4: seat electrically-movable backwards and forwards by approx. 17 cm (6.7 in)
- 5: seat electrically-inclinable backwards by 14°.
- 6: height of the footrest electrically adjustable by 20 cm (7.9 in)
- 7: seat can be swivelled 90° to both sides
- 8: manicure bowl can be optionally fixed at both armrests
- 9: tray can be easily installed by plugin function on both armrests
- 10: length of the base: approx. 150 cm (59.1 in)
- 11: width: approx. 80 cm (31.5 in)
- 12: height: approx. 43 cm (16.9 in).

EQUIPMENT VARIANTS

Features:

The new extractable affusion pipe offers the opportunity for individual Kneipp showers.
In all four PediSpa variants.

Automatic filling via **WATER FALL with PEARLSTREAM**
In PediSpa DELUXE.

The digital **SMART TOOLS** ensure convenient operation.
In PediSpa COMFORT, -SUPERIOR, -DELUXE.

SPA-Programs: VITALIZE & RELAX:

In PediSpa SUPERIOR, -DELUXE.

The **FOOT BATH^{ATT}** of Dornbracht combines different jet types, comfort-functions and pre-programmed scenarios, the effects of which remain long after the application is finished. In the **FOOT BATH^{ATT}**, you can choose between two scenarios:

VITALIZE refreshes, stimulates and gives power to the body. Four jets massage the reflex zones on the soles of your feet with increasing pressure intensity and fluctuating temperatures.

RELAX stimulates, relaxes and warms. First your feet are dipped in warm shallow water; then the temperature and water level rise slowly – until, after 10 minutes, you leave the feeling relaxed.

**Following equipment variants are available at the
PediSpa:**

Length of base: approx. 120 cm // width incl. armrests: approx. 80 cm // width of base: approx. 70 cm.

Length of base: approx. 47.2 in // width incl. armrests: approx. 31.5 in // width of base: approx. 27.6 in.

Wash Point Hair Swing

China basin with tilting mechanism for hair wash // rotatable by 360°
// single lever mixer with ceramic seal // hand shower with hose penetration and black shower hose, length: 100 cm/140 cm // colour of foot: white aluminium // colour of basin: white or black.

Max. reach 120 cm // height of basin: 94 cm - 100 cm (depending on tilt angle).

Max. reach 47.2 in // height of basin: 37.0 in - 39.4 in (depending on tilt angle).

Libra

Gharieni Libra

Gharieni's new Libra designer treatment tables open up a future-orientated dimension of the Wellness and Spa segment. An absolute new shower experience - in relaxed lying position - is made possible for the first time due to the horizontal shower arm.

The heatable treatment tables are height-adjustable and inclinable (forwards/backwards). They can be equipped with two different Shower-Modules the integrated technology of which provides a choreography of water temperature and water amount; the balance can be set via an innovative control panel. The temperature control is designed for the temperature perception of human beings. You can select different preset water-choreographies as well as you can vary the temperature, intensity and amount of water; so you will create balancing, stimulating or relaxing effects.

The designer treatment tables, made of innovative Corian®, are also an optical highlight. The resistant and easy-care material is characterized by its stone-like but also skin-pleasant haptics and noble appearance. The corpus of the Libra model versions is available in different modern colour nuances and optical structures, which leave nothing to be desired. You can choose from soft colours, e.g. Glacier White, delicate-beige Clam Shell or Savannah but also from stronger colours, e.g. warm Royal Red, Aztec Gold, elegant Chic Aubergine and Platinum - each of these colours emphasise the distinctive design of the Libra.

The combination of the exclusive design of the Horizontal Shower Module and the exceptional water choreography provides an unique experience in every Spa and wellness area.

Gharieni Libra Edge K

Selected wet treatment table // with horizontal shower arm // made of Corian® // straight height-adjustable and inclinable lying surface // cushion support for massages // integrated water drain // optional available: illumination for lying surface and shower arm; steam function; music.

height incl. arm: approx. 195 cm // height of lying surface: approx. 70-95 cm // total length: approx. 236 cm // length of lying surface: approx. 212 cm // width: 90 cm // lifting capacity: 180 kg // load-bearing capacity of lying surface*: 200 kg.

height incl. arm: approx. 76.8 in // height of lying surface: approx. 27.6-37.4 in // total length: approx. 92.9 in // length of lying surface: approx. 83.5 in // width: 35.4 in // lifting capacity: 396 lbs // load-bearing capacity of lying surface*: 440 lbs.

Gharieni Libra with Horizontal Shower

exclusive wet table // with Horizontal Shower Technology by Dornbracht // made of Corian® // lying surface with height and inclination adjustment // optional cushion for massage // integrated water drain // built-in hand shower

height incl. Arm: approx 195 cm // height lying surface: approx 60 - 90 cm // length: approx 235 cm // width: 90 cm // elevating force: 180 kg // load capacity of the bed surface: 200 kg

height incl. Arm: approx 30.2 in // height lying surface: approx 9.3 - 13.9 in // length: approx 36.4 in // width: 13.9 in // elevating force: 871 lbs // load capacity of the bed surface: 968 lbs

with six movable shower heads // manual water control with mixer tap // with fixed horizontal shower arm

V-Box Evo

with six movable shower heads // manual water control with mixer tap // manual height adjustment gas spring supported

V-Box Evo 2

with six movable shower heads // electronic water flow regulation // electronic temperature controller // 2-zone shower system for separate irrigation of the front or back region // electric height adjustment

Psammo Concept

Gharieni Psammo Concept

Sand (Greek: psammo) heated by the sun has been a traditional method for thousands of years in respect of holistic well-being. Even the ancient Egyptians enjoyed baths in hot desert sand. The gentle and deeply affecting warmth not only provides physical and mental relaxation, but also stimulates the metabolism and has a purifying effect. Nowadays, wellness treatments including hot sand – not least due to the innovative design of sand treatments enabled by the Gharieni Group Germany – capture the world of spas.

Including the spa tables MLX Quartz Square and MLX Quartz Round, supplemented by quartz stamps and signature treatments, the Gharieni Psammo Concept now provides treatments which will inspire the customers.

The new quartz sand experience

Hitherto, wellness customers could enjoy an extraordinary comfort experience when lying on the Basic Quartz Sand or on the more delicate variations with golden or copper coating. Now Gharieni offers even more: colour-quartz and hybrid-quartz mixtures which are suitable to meet the requirements of special treatments, e.g. Solid Ocean, Himalayan Touch or Baltic Sunset.

Solid Ocean

A "bath" as if you be in the ocean - bring the ocean into your Spa using the new Colour Sand Solid Ocean! The mixture of blue, white and grey quartz sand reminds us of the silver-blue waves of the ocean and reawakens holiday memories. And therefore, Solid Ocean provides an extraordinary experience in all Spa and wellness areas as well as for Thalasso treatments.

Customised colour mixtures for individual Signature treatments and treatment table presentations are available on request.

Himalayan Touch

This innovative mixture of quartz sand and Himalayan rock salt brings the beneficial microclimate of mountains, coasts and forests into your treatment room! The steplessly adjustable heating of the quartz and salt mixture release the ions of the salt. The ionized air increases the oxygen uptake during breathing. The positive effects are:

- refreshing and vitalising effects.
- relaxing, anticonvulsant and calming effects.
- stimulation of the metabolism and immune system.

Baltic Sunset

The mixture of quartz sand and high-quality Baltic amber uses the beneficial power of "The Gold of the Baltic Sea". The following effects are attributed to amber, also called Stone Of Security, Stone Of Trust or Stone Of Wholesomeness.

- mental harmonization.
- an energizing effect.
- a compensatory effect on the hormone balance.
- increased vitality.
- detoxification of the body.
- anti-inflammatory effects - even on the skin.
- support of the immune system.

The mixture of quartz and amber provides extraordinary Signature treatments and is also suitable for Thalasso treatments.

Dynamic Flow System

Sand in MOTION

Gharieni Dynamic Flow System

For specific massages

The innovative Sand-Spa-Table MLX Quartz is now available including the Dynamic Flow System - suitable for more intense and efficient treatments.

Air chambers which are hidden in the Spa Table and have been pre-programmed to be inflated and deflated make the pleasantly warm sand move; so your customers can receive comfortable back massages which activate the lymph circulation, relax the musculature and mobilise the entire body - even in absence of the therapist. In combination with the Dynamic Flow System, the MLX Quartz enables a "360°-treatment" for massages carried out by a therapist. The heatable sand warms the body while the smoothly-moving sand is supporting the therapist's massage from below. An all-around relaxing programme for your customers carried out in a very special way!

THE EMOTIONAL QUARTZ EXPERIENCE

Gharieni Sandor

made from real wood // filled with Alpha quartz sand // infinitely variable heating system // intensive deep relaxation through mild, sustainable heat // optional upholstered cushion for massages // incl. step

Your personal Spa Table

All our spa beds have a variety of functions and individualisation options. As well as their height-adjustment capability, fully adjustable bed surfaces and lowerable or detachable armrests ensure the greatest comfort. The Linak quality actuators are fitted with the safety function "Spline". This prevents the risk of being crushed by moving parts.

With non-motorised bed parts, Stabilus gas pressure springs ensure simple adjustment with little effort.

There are up to six motors, which can be driven with a manual control that allows – depending on the model – up to eight individual positions to be saved.

Not only do the beds meet all the ergonomic requirements, they also offer a number of other carefully thought-out details. An extremely low entry height or horizontally swivelling armrests (on F1) make the work easier. On the MLW models, an inclining headrest reduces neck strain.

The spa beds are fitted with a white PU cushion as standard. However, they can optionally be provided in choco or cream colours. Some of our models, such as the MLW Square, are also available with synthetic leather surfaces.

Here, as well as the standard fittings in white, you can select from a wide range of colours that you will find in the cover flap of this catalogue. Select your favourite from the Gharieni colour palette or from the exclusive Ferrari Stamskin Top Collection!

To custom-configure your bed, you will also find an extensive range of décor surfaces, and the metal casing can also be made up in different colours on special request.

Those who want to be highly individual can have personalised elements such as logos built into the surface.

You can view the options that are available for configuring your bed in the options table for the corresponding beds. For the key to the individual options, please refer to the back cover page of the catalogue.

Spa Tables

MLX Limber

Gharieni MLX Limber

available with 3 versions of the lying surface (see next page) // height, inclination, back part, leg section, head part and/or foot part adjustable electrically (depending on version) // lowerable armrests // inclinable headrest including face hole // Trendelenburg-function // locking function optionally // comfort padding made of PU material // various decors // generous storage space in the basis (e.g. up to two medium-sized Hot Cabis)

Height: 63-100 cm approx. // length: 203 cm approx. // width: 85 cm max. approx. // lifting capacity: 300 kg // capacity of the lying surface: 350 kg

Height: 24.6-39.0 in approx. // length: 79.2 in approx. // width: 33.2 in max. approx. // lifting capacity: 660 lbs // capacity of the lying surface: 770 lbs

Options

-  Smart-thermo special: programmable heating system with automatic shut-down
-  Coloured upholstery: max. 2 different colours possible

Synthetic leather Ferrari Stamskin Top, per colour
-  Metal components in special colour (white, titanium or dark brown included in the price of the bed)
-  Decorative surfaces from our collection, from (White and wenge are included in the price)
-  Foot switch with memory function: to control basic functions and memory positions

Modified Lift Up Center Section

Seat Position

Unique Flexibility:

Due to its numerous adjustment possibilities the MLX Limber provides an unique flexibility which allows new dimensions of treatment. Up to six motors allow extreme positions and turn the MLX Limber into a multifunctional unit with unequalled flexibility.

Semi Position

Trendelenburg Position

MLX Limber Versions

1

The ultra-flexible one: Limber Flex

The Limber Flex is equipped with lowerable armrests and an inclinable headrest including a face hole at the head and foot side of the lying surface, so you can use the multifunctional unit from both sides. Thereby you can adjust totally new treatment positions. For treatments without any limitation!

2

The podiatrist: Limber Pro

The Limber Pro is equipped with lowerable armrests and an inclinable headrest including a face hole. Additionally, the Limber Pro is equipped with an hinged foot part which allows pedicure treatments relieving the feet in prone position.

3

The classical one: Limber Classic

The Limber Classic is equipped with two lowerable armrests, an inclinable headrest including an opening for the nose and an end-to-end lying surface. This unit is the version for all classical facial and wellness treatments.

Mein Schiff 5

Wellmassage4D

The innovative treatment concept

Based on eight special treatment steps, which have been developed by the Gharieni Group and Jean-Guy de Gabriac (TIP TOUCH), the wellness massage 4D uses the complete range of flexibility of Gharieni's high-tech wellness table MLX. The MLX provides treatment options like almost no other treatment table due to its unique movement functions and the preset positions coordinated with the relevant treatment.

The wellness massage 4D combines "High Tech & High Touch" to get the customer enthusiastic about its effectiveness. Moreover, the therapist has the possibility to perform their profession under ideal ergonomic conditions.

Wellness massage 4D is available as a 50 min. and 80 min. treatment. Two different versions are available.

"RELAX"
to escape from everyday stress.

"DEEP"
a deep effect on the whole organism with additional focus on the back area.

8 Step Treatment

8 preset positions for 8 particular treatment steps

Gharieni MLX

MO1 Lamp Mount

An absolute novelty is the innovative pull-out magnifier lamp mount made of stainless steel. The exclusive customized LED magnifying lamp Flex ensures precise work. A feature that no other manufacturer offers - When not in use, the lamp mount simply disappears under the bed.

The lamp mount is simply pushed after use and disappears under the mattress.

All functions at a glance

with Gharieni-Smart-Remote
 WITH GHARIENI-SMART-REMOTE

Gharieni-Smart-Remote

Now it gets digital!

You can easily control the options of selected Gharieni wellness tables via a Tablet PC using our self-developed user interface. This innovation enables the user to work intuitively and, therefore, faster.

In future, you can control the settings via Gharieni Smart Remote, e.g. the temperature control of the upholstery heater "Smart Thermo", the adjustment and saving of the treatment positions, the control of music and video playback, the adjustment of vibration-massages.

You can also easily control treatment rituals like our Signature treatment "WellMassage4D" via Smart Remote.

Please equip your next Gharieni treatment table with up-to-date technology!

height: 22.4 in - 35.8 in // length: 79.9 in // width: S 29.9 in / M 33.5 in / L 36.2 in // elevating force: 550 lbs // load capacity of the bed surface: 660 lbs

Select (design your own spa bed):

Every F1 Select is configured on a customer-specific basis from differing colour options. In this way you can select your individual colour combinations from four colours (white, titanium, dark brown, bronze) for all of the labelled metal and wood parts. White and anthracite versions are available for the side fittings. It goes without saying you can also decide the upholstery colours from a choice of white, cream or choco!

The F1 Select has four actuators as standard which can all be controlled individually and at the same time via three different operating alternatives.

Select

(one of the following conditions already included in the price):

The operation via cable connected hand held switch enables additional storage and the recall of ten memory treatment positions. One key is also reserved for the getting on and getting off positions. In addition to this, the active locking function that can be activated also prevents the unintended use of the actuators.

The alternative infra-red remote control, with which it is possible to save and recall three memory treatment positions, makes the cable-free operation of the bed more flexible and safe.

The alternative foot pedal enables the individual control of all four actuators and the storage and recall of two treatment positions via the memory.

Coloured Light Module for MLW F1 Wood and Select

On the underside of the bed there are LED strips to provide exclusive visuals and the appropriate atmosphere which illuminate the floor and part of the casing. The choice of colour for the light can be made individually or via a second mode with an infinitely variable colour progression of yellow, orange red, magenta, violet, blue, turquoise, green and "white".

coloured light module

Electrically Lowerable Armrests

To ensure the straightforward handling of the bed, the F1 can be fitted with electrically lowerable armrests. Both armrests can be controlled at the same time at the push of a button.

Pair of armrests, electric

Options

-  Triple Airback technology: electro-pneumatic 3-zone lumbar support system in the upholstery
-  Smart-thermo special: programmable heating system with automatic shut-down
-  Vibro-wellness: gentle vibration system with a range of different settings
-  Colour upholstery PU: max. 2 different colours available, per colour
-  Audio-relax headrest: with built-in loudspeakers to connect to standard players
-  Metal components in special colour (white, titanium or dark brown included in the price of the bed)
-  Decorative surfaces from our collection, from (White and wenge are included in the price)
-  Mechanically retractable castors
-  Foot switch with memory function: to control basic functions and memory positions (choice of one control element included in the price)
-  IR hand-held remote control: wireless operation for control of the bed (choice of one control element included in the price)

More Comfort with 6 Actuators

Our size M and L MLW F1 models are also available with six actuators. For more comfort in addition to the height, back, leg and foot settings, the armrests can also be fitted with actuators. In addition to the direct control of the armrests themselves via push buttons, the armrest settings can also be saved via the memory functions. In this way the F1 can be brought into the pre-programmed position at the touch of a button.

MLW Amphibia

“Ashore” ...

... combines the upholstery version of the MLW Amphibia with all the advantages of the MLW. In addition to this the upholstery version of the MLW Amphibia is also equipped with our Triple Airback technology: in this way the upholstery can be electro-pneumatically adjusted to the anatomy of the customer individually and independently at three different places - two in the back area and one in the lower leg area. The exchangeable centre section of the upholstery is equipped with special heat elements. The smart thermo micro-processor enables the control and regulation and programming of the thermo function.

“On the water”

The special feature of this bed is the unique variability of the bed surface: The centre part of the upholstery can be swapped for water-filled aqua upholstery. This means the bed surface gains the unmistakably comfortable character of a water bed. The customer enjoys a feeling of lightness on this bed. They experience the treatment more intensively and the relaxation effect is even greater. Integrated heat mats here also ensure a pleasant level of warmth. The underside of the wood covering features LED strips for exclusive visuals and an appropriate atmosphere. For coloured light treatments these are also on the sides and under the water cushions.

The choice of colour for the light can be made individually or via a second mode with an infinitely variable colour progression of yellow, orange, red, magenta, violet, blue, turquoise, green and “white”. The castor mechanism which is fitted as standard guarantees mobility.

Oil massages can be provided in combination with a protective cover. The special optional Ayurveda cover makes the application of oil pouring possible.

All in all the MLW Amphibia enables the realisation of a complete treatment concept with all the benefits of the latest applications. This queen of all beds really has to be “experienced”!

The basic casing is available in different wood and décor versions at extra cost.

Gharieni MLW Amphibia

exclusive spa bed // bed surface with heated Aqua upholstery // illuminated bed surface and sides // height, incline, back rest and foot section electrically adjustable // lowerable armrests // Head section can be tilted by +/- 30° // four treatment positions savable // soft PU upholstery can be exchanged for Aqua upholstery // inflatable connection for optional Ayurveda cover // optionally available in different décors and versions

Âme Spa & Wellness Collective at
Turnberry Isle // Florida, USA

Sparkling Gem

A new and special design means the MLW Amphibia is also an eye catcher: Its high quality finish with glittering Swarovski elements ensures a sparkling elegance in your cabin or your spa; and the special feature: the perfectly integrated LED strips not only immerse the water cushions in wonderful and alternating coloured light, but also the base of the bed. In this way the Swarovski elements sparkle in an especially impressive way.

GHARLENI

Spa.Wave
Binaural Acoustic & Dynamic Stimulation

Back to the Alpha State

Deep relaxation
including additional benefit

Sound Massage System, available exclusively at Gharieni

The Spa.Wave experience provides the key benefits of mindfulness, meditation and deep-relaxation techniques. Special music, which is applied through gentle acoustic waves with binaural sounds, effects a completely new anti-stress-experience during a 30 or 60 minute sound therapy treatment. The technique the therapy is based on is the Quantum-Harmonic-Sound Therapy. Precise and complex audio frequencies matched to the organs and energy centres (chakras) of the body can be experienced via the Noise-Cancelling Stereo Headphones or the integrated speakers in the headrest. The Spa.Wave System provides intense body and muscle relaxation within a few minutes when combined with the highly-efficient oscillation massage system integrated in the lying surface. The ultimate way of recreation, refreshment and revitalization. Clinical study carried out by independent researchers and laboratories have proven the effectiveness in a wide range of applications:

- 40% to 60 % less stress, angst, traumata and depressive symptoms after just 1 treatment.
- Improved quality and quantity of sleep by up to 80 % within just 14 days.
- Reduced anger, angst and mood fluctuations.
- Reduced psychological based aspects of pains.

Spa.Wave can also be used as a standalone-application or in combination with further treatments such as massages, body wraps and cosmetic treatments; so you can integrate Spa.Wave into practically each treatment schedule. The Spa.Wave can be easily and safely operated. Any treatment outcome will be improved by using Spa.Wave.

Storage Space

Two lateral storage sections in white or wenge. This feature means your equipment is always close to hand.

Art. 495Z02

Lateral Hand-Held Switch Mounting

Attached on each side. Enables the attachment of a hand-held switch on either the right or left hand side of the bed. Can also be used for the subsequent connection of a foot switch.

Art. 495Z03

Ayurveda Cover

The transparent Ayurveda cover is ideal for oil pouring. It features a drain which enables the oil to flow away cleanly. The side section is inflatable so that the whole of the cover is easy to fold up and put away after use.

Art. 49050

Magnetic Flap Table

For putting accessories under the nose slot. The table is folded upwards to save space after use and stays in place with invisible magnets.

Art. 495Z01

Removable Foot Section

Perfect for all foot treatments. This option makes your MLW a genuine all-rounder.

Removing the removable foot section makes accessing the complete foot area easier. This means treating feet is no longer any problem!

Foot Section

PU Protective Cover

for oil massages, washable to 90 °C, white, cream or choco

Art. 49051

MuViBox (w/o picture.)

Vibration massage in time to the music! With the MuViBox the vibration devices installed in the upholstery can be alerted according to specific frequencies. Through the connection of an external device (e.g. MP3 player) the music can not only be heard it can also be felt. The MuViBox enables music to be listened to with the supplied headphones or a speaker that is fitted in the head section.

incl. MP3-Player

Paper Roll holder for MLW

Holder for paper rolls especially for MLW and Amphibia. Metal in titanium colour.

Art. 42068/50

Protective Foot Cover

From stable, transparent plastic.

Art. 49052

Upholstery Covers

Well protected! With the suitable covers your MLW is always well protected against differing forms of dirt. Irrespective of whether it is dust, oil or dirt, you can find the right protective cover for the MLW, F1 and Amphibia.

You find matching covers for your Spa table in our "Wellness & Medical Accessories" catalogue.

Gel Cushion for Nose Slot

With this gel cushion you prevent uncomfortable pressure points on the face. With the soft gel fluid the face is also pleasantly cooled. Available in transparent.

Art. 45010V2

Nose Slot Towels

Extra soft, slotted throwaway towel to protect the upholstery on the headrests, exceptionally practical and hygienic. Recommended for all headrests featuring a nose slot.

Art. 45300

Multimedia-Soundsystem (MMS)

The sound experience for your spa table. This built-in interface offers a modern interface between many players and your bed. With the built-in speaker, you can relax to your own favourite music. By pressing one button you are able to either concentrate the music on the head section or to sound the whole room. The MMS is available for MLW F1, MO1 Evo and MLX

Multimedia sound system: for Bluetooth, SD card, USB, AUX and IPHONE.

Smart-thermo heating system

MLW Green

Gharieni MLW Green

The topic of "Green Spa" concerns the ecological and sustainable construction, set-up and operation of spa systems. Important components in this context are the treatment cabins which consist of several components such as a spa bed, a work stool and a treatments trolley. As a member and local manufacturer of high quality treatment and spa beds we were requested to address this topic by the German Wellness Association, and to offer the market a corresponding solution.

Our solution is based on sustainability, fair trade, ecological components and ecological energy balance - without missing out on design, comfort, functionality or safety. In this way the adjustment of the treatment beds can be completed in three different ways: by muscle power alone or a movement supported by spring force, or with electrical actuators. Our choice was on the adjustment option supported by spring force. That is why for the height, back, incline, head section and armrest adjustment we used pneumatic springs.

The trend for using wooden parts in Green Spa is set to develop more and more in the direction of authentic wood products from local areas of cultivation. For this reason we decided on maple cultivated locally. Ecological principles are also taken into consideration in the treatment of the wood elements such as the sealing.

We also pay special attention to sustainability and ecology with the upholstery which is why natural latex is used:

- The growing demand of consumers for products which contribute to sustainable development and are able to provide an answer to the increasing concern for a reasoned solution to the CO2 problem.

GREEN SPA is a sustainability initiative from the German Wellness Association for the spa and wellness sector. Our company supports the sustainable operation of spa and wellness facilities through suitable products and/or services.

- A positive energy balance: The energy required for production and the entire energy consumption and far better than other alternatives.
- A sustained, high quality bed comfort which is guaranteed by the unique product attributes. Natural latex is a renewable natural resource and therefore contributes to sustainable development. As soon as the rubber plantations are ready to enter production (between the 5th and 8th year of the tree's life) it is possible to draw natural latex for 20 to 35 years. The total surface (in the entire world) coverage of the "Hevea Brasiliensis" is estimated to total 8 to 9 million hectares. The total biomass of the rubber trees is able to neutralise around 90 million tonnes of carbon dioxide (CO₂) per year.
- Guaranteed quality: The upholstery causes neither damp related problems nor the development of fungus nor allergies. Direct contact occurs via the upholstery cover and should therefore be selected with the greatest of care. The cotton cover we use is an ecological product from fair trade with certification.
- Ecological product: EcoFair cotton yarn is a 100% organic product. Only natural fertilizers and pesticides are used to promote the growth of the cotton plants and to provide protection against illnesses and garden pests.
- Fair trade: The yarn used for the production of the EcoFair cover not only originates from ecological cultivation, it is also purchased according to the principles of fair trade.
- Certificate: EcoFair cotton yarn has been awarded the authenticity and quality certificate for ecologically cultivated cotton.

*height incl. upholstery: approx 9.8 in // height w/o upholstery: 6.3 in
// width: 82.7 in // depth: 82.7 in*

330° Rotonde
function

The Gharieni cosmetics beds are both functional and flexible. The sitting surfaces are multi-adjustable and can be controlled with a hand-held switch. Depending on the model of bed, up to eight positions can be saved using the memory function. The high quality actuators from Linak are equipped with the "Spline" safety function which prevents the risk of crushing on moving parts. With non-motorised bed parts, Stabilus gas pressure springs ensure simple adjustment with little effort.

The design of the beds was configured taking ergonomic factors into account. Numerous well thought out details such as the optional Rotonde turning function make working easier. The extendable head and foot sections offer comfort to customers of all body size.

The spa beds are fitted with white Gharieni synthetic leather upholstery as standard. In addition to the standard equipment you are also able to choose from a wide range of colours here. These are provided on the back cover of the catalogue.

Select your favourites from the Gharieni colour palette or from the exclusive Ferrari Stamskin Top Collection! On some models of bed you can combine up to three different colours for your personal bed.

The casing is made out of robust, easy care and colour-fast plastic. On almost all models it is available both in the standard white and also in titanium.

You can view the options available for configuring your bed in the options table for the corresponding beds. Please find explanations of the individual options on the back cover of the catalogue. You can find an extensive list of accessories at the end of the relevant bed section, and in our "Wellness & Medical Accessories" catalogue.

Beauty Beds

SPX

Gharieni SPX & SPX Reverse

newly designed upholstery incl. mechanical Airback // compact base // exceptional design // suitable for almost all treatments // extendable foot and head section // electrically adjustable height, back, sitting angle and leg section // eight freely selectable memory positions // hand-held switch with lock function // Spline safety technology // optional foot control // also available with inverted base as reverse version

Foot rolls for chiropody patient chairs

Alternative to standard foot sections // cylindrical design // offer a
wide range of cover options // suitable for almost all Gharieni chi-
ropody beds (apart from PLS).

Art. 47000

Hygiene collection system
(for SL & SPL Podo)

Practical accessories for your chiropody bed.
Rather than the extendable foot section, the
collection system is fitted here instead -
either directly or as an upgrade! This can be
removed at any time and swapped for the foot
section. Very hygienic, helpful and time sav-
ing, especially with wet treatments. incl. 40
hygiene bags.

oro®

Synthetic leather cleaner

Cleans and maintains chair covers and other
synthetic leather surfaces // Through the simul-
taneous use of oro® synthetic leather cleaner
and care and the special sponge included with
the set, dirt and stains which are hard to remove
can also be removed quickly and thoroughly.

Art. 79444

Exquisite terry products

indicate, that you place great importance on comfort in your massage studio or Spa. First-class production guarantees the exquisite design, perfect manufacture and - of course - high quality materials of our compress cloths, facial cleansing cloths and towels as well as of our upholstery-covers. The selected material convinces through its comfortable grip, extreme absorbency and wonderful, comfortable skin sensation. In addition, the fabrics and covers including their borders and logos will keep form and size. Top quality colouring guarantees demanding colour nuances of highest quality and stability.

As we provide these offers you can take advantage of receiving cloths/towels and covers as well as velour cloths and cotton sheets from a single source.

So, not only the quality is right! Moreover, the coherent presentation of your Spa/institute is enabled. Please use our Wellness- & Medical-Accessories Catalogue to receive further information about our terry products.

The right cover for your Gharieni bed.

Our covers, which are specially-manufactured for our Spa-Tables, will perfectly protect your working devices from dirt and heavy use. Due to the high-quality material machine laundry (max. 60°C) for hygienic cleaning is thus possible. Internal elastic bands keep the single sections exactly in the right position. All functions of the Spa-Table will continue working.

Our covers are available in three different colours: White, Choco and Crème.

It would be best if you order the relevant cover when purchasing the Spa-Table. Our team will be happy to advise you.

K10 Furniture

Gharieni K10 Furniture Series

The new furniture series K 10 is the innovative further development of the successful K 9series. K 10 is designed as a modular system with a gap-free surface, which covers the single elements and encloses them like a frame. The K 10 series provides a perfect and aesthetic organization system for your treatment room.

The basic module is available in three variants relevant to your needs and the size of your treatment room: for two, three or four individually customised built-in modules with a width of 107 cm to 207 cm. You can also choose the built-in modules - a drawer module, a cabinet module and a base cabinet module - relevant to your needs.

Furthermore, a particularly practical feature is the perfectly integrable treatment unit Spa Trolley HST K 10-Module. This module is equipped with soundless low-friction rollers and can easily be pulled out for treatment and closed after treatment. The Spa Trolley HST is equipped with a stowable evaporator incl. herb-apparatus. The integrated FDS (Foam Detecting System) switches off the evaporator if any foaming caused by contamination occurs; moreover, the arm of the evaporator is pivotable.

This module also provides a large storage space, a telescopic tray, a drawer and a compartment with integrated Hot Cabi. Furthermore, it is equipped with a storage compartment for the magnifying lamp Flex and a holder for the lamp. The base modules and built-in modules are - of course - available in many noble decors suitable for a perfect presentation in your institute. The installation of an additional basin is also possible.

Gharieni K10 Furniture Series

available in three versions: incl. 2, 3 or 4 modules // individually customised built-in modules // optional available in many different decors // also available as a wash-stand base cabinet // installation of a worktop washbasin is possible

height: 39.0 in // width without grip: 17.7 in // width incl. grip: 21.3 in // depth (without handle): 17.7 in // depth (incl. handle): 21.3 in

Gharieni HST Wax Trolley Duo

with two integrated wax heaters // three drawer compartments // supporting surface can be pushed back // available in various decors // on rollers

Height: 89 cm // Width: 50 cm // Depth (without handle): 48 cm // Depth (incl. handle): 54 cm

Height: 34.7 in // Width: 19.5 in // Depth (without handle): 18.7 in // Depth (incl. handle): 21.1 in

Gharieni EasyStore Shelf Module

mobile cabinet // flexible shelves // light running castors // use as a mobile solitary furniture or in a row of furniture // 50 different décors

height: 97.5 cm // width: 40 cm // depth: 55 cm

height: 38.4 in // width: 15.7 in // depth: 21.7 in

Gharieni EasyStore Drawers Module

mobile, modular drawer cabinet // number of drawer elements selectable // up to five elements // light running castors

height: 97.5 cm // width: 40 cm // depth: 55 cm

height: 38.4 in // width: 15.7 in // depth: 21.7 in

Additional individual drawer element

The EasyStore drawers module can be extended or reduced with individual drawer elements.

All the prices of these high quality, elegant designer modules apply to the white or wenge décor. It is also possible to optionally choose from over 50 additional wood and colour décors in matt or high gloss varnish and thereby find the suitable visuals for the corresponding practice. The chiropody system is especially elegant in the new "Ebony" wood décor, for instance, a modern gloss wood visual effect.

Images and colours may differ slightly and are therefore non-binding!

Devices

DEVICES

Gharieni LED Coloured Light Lamp

on preparation trolley // with 5 turning shelves // on castors // body made from robust aluminium // pivoted lamp arm, change the mood with the targeted use of light!

The new LED high performance technology for your studio. Through the additive mixing of the colours red, green and blue a visible colour spectrum of more than 16 million colours results.

Of this palette we have chosen eight of the most effective colours for you. Use the complete spectrum and in so doing advance the physical and mental well-being of your customer. Whether it is their face or body, with the LED coloured light lamp you can provide a head to toe treatment:

// Yellow can achieve serenity and comfort. The glandular activity is encouraged and the body is able to detox more easily. The sense of touch and temperature sensitivity are sensitised.

// Orange can increase optimism and joie-de-vivre. The need for pleasure and sensuality is strengthened. Metabolites are broken down more quickly and cell renewal is supported.

// Red means activity and movement. With the use of this colour the heart, kidneys and muscles are addressed and the circulation supported. The skin metabolism is encouraged.

// Magenta has a harmonising and balancing effect on the entire body. It stimulates the heart, kidneys and circulation.

Art. 61155

UV Protection Goggle

to protect the eyes for the customer during the use of coloured light or with corresponding treatments that require it. In different colours available.

Art. 41844

// Violet is one of the colder colours and has a balancing effect. It supports sleep and has an elevating and liberating effect.

// Blue means peace and relaxation. With this colour the nerves, skin and eyes are relaxed.

It can contribute to the improvement of hardened skin (in the keratin forming germinal layer).

// Turquoise is enlivening, cleansing and relieves pain. Headaches and nervousness can be alleviated. Skin problems can be reduced with the encouragement of regenerative processes.

// Green as a stress reducing and eye strengthening effect. Irritated skin can be treated with this colour. Glandular function, and therefore the skin care, is also managed.

// The 9th "colour", the white light of the light diodes, combines the entire spectrum of colours.

With our latest development of LED coloured light lamps it is possible to initiate different modes: On selecting one of the individual colours for targeted treatment these can be used for up to 20 minutes. After that the coloured light lamp switches off automatically. Another mode enables the progressive changing of the light colours. The nine different colours flow into each other like a rainbow. Achieve the greatest effect with the lowest level of power consumption.

In comparison with conventional lights, LED lights stand out with an extremely long lifespan and very low power consumption.

Gharieni Sand Pouches Warmer

table top device to warm up sand pouches // made from real wood
// filled with Alpha Quartz Sand // infinitely variable heating system

height: ca. 24 cm // length: 63,5 cm // width: 23,5 cm

Individual variety

Many customers want to design their treatment rooms individually according to their personal taste. For this reason, with its wide range of wood décors, Gharieni can offer you the possibility of adapting your cabins, beds and devices to your ambience.

Through wood or colour applications, for instance, it is possible for certain treatment towers, beds and equipment trolleys to be with each other which therefore combine to form a single unit. Use the possibility of your personal cabin!

Ask about our current patterns and receive individual advice!

„Stamskin® One“ Synthetic Leather

Macchiato

Designed to resist the harshest environments (outdoor, medical, contract, yachting, etc.), Stamskin One offers exceptional technical qualities and a unique finish.

Stamskin One ensures even easier cleaning and disinfection thanks to Elastomère Serge Ferrari technology. This specific formulation is insensitive to oils (massage oils, sun cream, etc.), body fluids and alcohols (detergents), and also offers improved breathability.
